FIFTH SEEDLIST 99/00 (5/00) - revised issue

1. Welcome to the last seedlist of the 1999/2000 season. I apologise that it has been delayed beyond its planned date, as a result of a late Easter (and thus races being held near the end of the period, and contributing to delay in getting results) and my own absence at the recent FIS Congress, of which more later. I must give my sincere thanks to Peter Heath, who has done a great deal to prepare race results for processing, and has helped to reduce the potential for further delay – 68 of the total 141 races processed are new to this last list!
2. Further statistics show that 1000 competitors have produced 3621 results from all races. Within age groups, it is noteworthy that the percentage of females reduces progressively: they make up 39% of C1 registrations, 36% of C2, 32% of Juniors, and only 14% of Seniors (although this figure is undoubtedly biased by the number of male Service racers).
3. As advised in the preamble to the last list, those racers without a current performance (including these latest results) superior to their SOS points will have had their SOS points loaded by up to 15%. To put this into context in SL, while 226 racers who had no previous form (ie no SOS points) now have points, some 200 others who had no UK race result this period have had their SOS points loaded. One change, contributing to reduced loadings, is that all British FIS races are now entered using the race points and penalty calculated under FIS rules (ie not recalculated using British points/racers only). In the coming season we will be moving yet closer to FIS operations, in that we will have maximum race points and will also give the opportunity of using non-seeded racers when calculating race penalties (6 races could not be seeded because of a lack of sufficient seeded finishers). A small Working Group of the TD Forum will be considering how this is to be introduced, and will be making its recommendations prior to next season.
4. At FIS level, it is unfortunate that, despite GBR pressure, we have not been able to reintroduce 2-run GS for Children1 racers, which will be a disappointment for racers, organisers and seeders alike! The F factors (which underpin the race point calculations) will change for the next 2 years: SL will be 570 (from 580), GS 830 (from 810), Super-G 1030 (from 930) and DH 1280 (from 1290). Since the Super-G change is relatively large, SOS points for 200/2001 will be uplifted by the corresponding factor; this alteration will not be required for the other disciplines.
5. Finally, may I again thank all who have worked so hard to ensure that this data is provided, processed and circulated. Peter Heath has already been mentioned, but I also owe a debt to the staff at the BSSF, the ESC, SCOW and Snowsport Scotland, as well as organisers and TDs – as do we all.

I hope that you all have a good summer – next list 1 Dec 2000.

Dick Taplin
