FIFTH SEEDLIST 01/02 (5/02)

1. Well, the end of another season, and one which one looks back on with somewhat mixed feelings. Once again, climatic conditions conspired to provide soft pistes throughout the season, with the result that many of the speed events were either cancelled, curtailed or substituted by technical events. However, for a change, the Services did not have a monopoly on Speed events, and successful DH and SGs were run by many groups. It is telling that, this year, slalom results fill 2 binders rather than the usual 1! In all, 140 races were considered for seeding, and 131 finally included covering 4096 individual performances, which is a positive improvement from the last couple of years.

2. We have also had the euphoria of our first skiing Olympic medal – and now the agonising wait to see if Alain Baxter will be allowed to retain it on appeal. For my part, irrespective of the outcome of his appeal, he has proved that the British can get on the podium along with our Alpine competitors – and I am equally sure that that success was through his ability, and not the 'benefit' of a Vicks inhaler! This must be a positive incentive to us all – we only have 4 years to the next attempt.

3. Finally, I would like to thank all the organisers, TDs and timing experts who have kept the results coming to feed the BASS. In particular I must thank the ladies in each of the home nation ski associations who have kept the registrations flowing in, and without whose efforts the BASS would never get compiled. I save the greatest accolade for Peter Heath who helps me so effectively, acting as an external conscience, quality assurer and sounding board and who, of course, also publishes so much of value to the skiing community on his website.

4. For some, the lure of the Southern Hemisphere calls, while others will now enjoy some rest before the next European season. Either way, I wish you all a most enjoyable summer, and look forward to generating the 1st list of the 2002/03 season on 1 Dec 2002 – please register early
